ABOUT MOTOREX

STRONG BRANDS HAVE DEEP ROOTS

MOTOREX Oil of Switzerland is a Swiss oil blending company located in Langenthal, Switzerland. For over 100 years, MOTOREX-BUCHER GROUP AG has been an independently owned, family run company and is currently the largest oil blending and manufacturing company in Switzerland. MOTOREX have relied on the highest quality of products, innovation and development expertise. Thanks to consistent quality assurance at every level of the company, MOTOREX continue to impress with the highest quality products and service.

DID YOU KNOW: All MOTOREX products in Australia are designed, developed and manufactured in Switzerland. Then shipped to us in Australia. That means you receive the same high-quality oils and lubricants used by Dakar legend Toby Price and MXGP superpowers Antonio Cairoli and Jeffrey Herlings!

MOTOLINE | BORN IN RACING

Buying from MOTOREX's range of high-performance engine oils, gearbox oils, brake fluids, greases and lubricating & protective sprays means you can depend on finding the right product for the job. No matter what brand of motorcycle or the type of riding you do, MOTOREX has the right oil for your application!

Since the late 1970s, MOTOREX has been involved in various motorsports as a technical partner. Developing lubricants for racing and testing them under the toughest conditions has always provided valuable insights for new and improved commercial products.

The continuous success in world-class racing is proof of MOTOREX's innovation and development expertise. However, to generate maximum benefit for the bikers all over the world, there is still more needed: the ongoing fine-tuning and improvement of our range based on the insights from the race tracks. The results are products born in racing and proven to deliver maximum performance in everyday use.

Over 126 world championship titles across motocross, supercross, enduro, rally and other disciplines, MOTOREX has a history of providing the very best lubricants to the best teams.

ABOUT MOTOREX

GLOBAL PARTNERSHIPS

MOTOREX have formed strong global strategic partnerships with leading motorcycle manufactures and engine tuning specialists. These partnerships provide valuable insights for future product development and implementation of new technologies.

MOTOREX & KTM Group

MOTOREX products are used as the official first fill in all KTM, Husqvarna and GASGAS production models, as well as providing technical support to all Factory Racing and subsidiary motorsport activities.

MOTOREX & AC SCHNITZER

MOTOREX joined forces with AC Schnitzer to develop the best performing engine oil for BMW's Boxer engine. Boxer 4T is the result of AC Schnitzer's world-renowned engine tuning and racing experience coming together with MOTOREX's extensive experience in manufacturing high-performance lubricants.

MOTOREX AUSTRALIA | STAY CONNECTED

MOTOREX Australia know Australian riders, Australian riding and the tough Australian riding conditions! Our roots start deep within motorcycle racing and our support extends to all forms of amateur & pro racing nation-wide. We're proud to supply high-quality Swiss oils & lubricants that exceeds even the toughest demands faced in Australia's riding conditions.

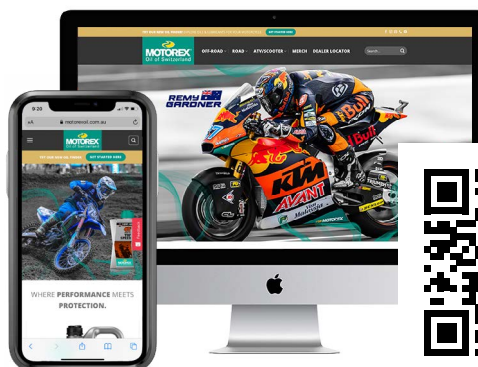

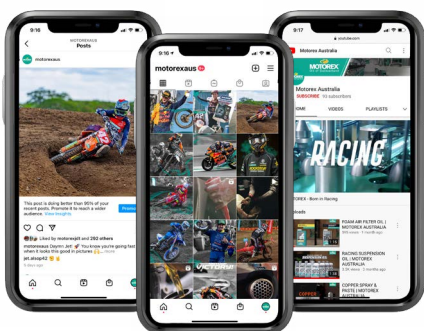

MOTOREX Oil of Switzerland is proudly distributed by A1 Accessory Imports and is available at all good motorcycle dealerships and online retailers.

WHERE DOES YOUR OIL COME FROM?

Oil quality counts! Not all raw materials used to create engine oil are subject to the same quality controls and unlike outsourced oil blending or oils manufactured under licence, MOTOREX have full control over the quality of raw materials used in every engine oil.

MOTOREX oil is blended in Switzerland by Swiss chemists who carefully blend high quality base oils, Esters, PAO and specific additive packages to create the perfect oil blend for each application. MOTOREX's reputation for the highest quality engine oils is guaranteed by undertaking stringent base oil testing, no outsourced blending and combined with years of passionate in house blending techniques ensures only the best!

Helpful Tip:

Check the back of your oil bottle to see what country your oil is manufactured in and if it's outsourced or blended under authority.

WHAT DOES OIL DO?

In a modern motorcycle engine, oil needs to do many functions and some of these requirements are incompatible.

Such as:

- **Lubricity of the piston and bore vs clutch grip and feel**
- **Cold start up lubrication vs extreme heat evaporation**
- **Shear stability for gear protection vs pumpability around the engine**

The MOTOREX laboratory controls the quality of the raw materials used in every engine oil. It's MOTOREX's combination of high-quality base oils, mixed with the right additives, at the right temperature that guarantees the highest quality across the entire range! Many of the quality additives and base oils blended at MOTOREX's headquarters in Langenthal Switzerland are only available in within Europe.

Base Oils

The highest quality base oil used from the start.

+

Additives

Blended with the right additive packages.

+

Temperature

Mixed at the perfect temperatures.

SWISS TECHNOLOGY

Every day, experienced tribology specialists, engineers, chemists, technicians and marketing specialists devote their efforts to helping MOTOREX maintain its position as a market leader.

All MOTOREX products in Australia are designed, developed and manufactured in Switzerland. Then shipped to us in Australia. That means you receive the same high-quality oils and lubricants used by Dakar legend Toby Price and MXGP superpowers Antonio Cairoli and Jeffrey Herlings!

WHY JASO MA2 RATINGS MATTER?

Unlike car engines (that use a separate gearbox and engine oil), motorcycle engines require another level of performance that generic engine oils can't match. Car oils have used more and more friction modifiers, which, although good for cars, isn't too good for motorcycles as these modifiers can cause clutches to slip at higher revs and gearbox pitting.

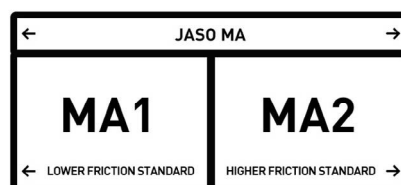

JASO MA classification standards were introduced for motorcycle manufacturers to ensure the correct oil is used that pass the JASO T 903 : 2016 clutch system friction test.

The JASO MA standard is divided into 2 distinct ranges of performance.

JASO MA1: Lower Friction Standard

JASO MA2: Higher Friction Standard

	JASO MA2	JASO MA1
Dynamic Friction Characteristic Index (DFI)	≥ 1.8 and < 2.5	≥ 1.45 and < 1.8
Static Friction Characteristic Index (SFI)	≥ 1.7 and < 2.5	≥ 1.15 and < 1.7
Stop Time Index (STI)	≥ 1.9 and < 2.5	≥ 1.55 and < 1.9

If some properties fall within the MA1 and some within MA2 then the product is simply a JASO MA product. All MOTOREX four stroke engine oils achieve the JASO MA2 standard. **Make sure you look out for the MA standards label on the back of the bottle.**

MOTOREX COLOURED LABEL BREAKDOWN

MOTOREX's labelling system makes it easy to select between Racing, Fully Synthetic, Synthetic Performance & Synthetic Blend engine oils.

MOTOREX AUSTRALIA OIL FINDER

You can now search & explore a full range of motorcycle-specific MOTOREX products straight from your smartphone and home computers. The quick and easy to use application provides a list of recommended oils & lubricants specific to your selected motorcycle.

ALL-NEW 20L BAG-IN-BOX

Stepping away from traditional plastic drum containers, MOTOREX's new eco-friendly 20L Bag-In-Box design is cleaner to use, better for the environment and produces less waste. The bag is filled using a specially configured machine that ensures there are absolutely no air pockets in the bag. This results in maximum purity and guarantees that the contents do not come into contact with the surrounding air or dust particles.

Now available in Four-Stroke, Formula, Top Speed, Cross Power and Power Synt oil options.

Set up box and open dispenser flap.

Secure dispenser in the round opening.

Draw out lubricant without losing a single drop!

Seperate empty bag from box and dispose of properly.

RACING LINE | DEVELOPED BY MOTOREX RACING LAB.

The MOTOREX Racing Lab is responsible for supporting and developing the latest racing products that are demanded by racing teams around the world. The MOTOREX Racing Lab has been recognised as the most well established racing specialists among racing teams.

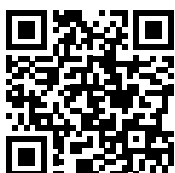

**RACING PRO 4T CROSS****MOTOCROSS / RACING**

Racing Pro 4T Cross is a high-performance fully synthetic engine oil. Developed for optimum performance in Japanese off-road motorcycles.

- Synthetic, high-performance protection
- Exceptionally high shear strength and friction reduction
- Ultimate clutch grip and sheer stability for smooth clutch operation

Meets all the requirements of Yamaha, Honda, Kawasaki and Suzuki for use in their factory race bikes and motocross models.

- 2 Stroke use Scooter 2T

PART #:	LITRE:	JASO:	API:	RRP:
MS2T1	1L	JASO FD	TC	\$23.95
MS2T25	25L	JASO FD	TC	\$445.00

TWO STROKE

OFF-ROAD / FUN BIKES

- Modern semi-synthetic engine oil for 2-stroke motorcycles
- Low smoke and combustion residues
- For pre-mix and separate lubrication

PART #:	LITRE:	JASO:	API:	RRP:
M2ST1	1L	JASO FD	TC	\$21.95

RACING GEAR OIL

MOTOCROSS / RACING

- Synthetic performance MC converted. Pro-level gear oil for separate lubricated transmissions
- Accurate gear changes, perfect hook up
- Can be used with 2T and 4T engines

PART #:	LITRE:	SAE:	API:	RRP:
MRGO10W401	1L	10W40	GL-4	\$29.95

GEAR OIL 10W30

MOTOCROSS & MINI BIKES

- For separate lubricated transmissions
- Great clutch feel and easy gear selection
- Extended service interval and reduced clutch wear

PART #:	LITRE:	SAE:	API:	RRP:
MGO10W301	1L	10W30	GL-4	\$24.95
MGO10W304	4L	10W30	GL-4	\$87.50
MGO10W3025	25L	10W30	GL-4	\$479.95

GEAR OIL HYPOID

MINERAL BASED GEAR OIL

- GL-5 rated paraffin mineral gear oil for gearboxes or universal joints. Handles extreme loads at all temperatures
- SAE 80W/90 API GL-5

PART #:	LITRE:	SAE:	API:	RRP:
MGOH80W901	1L	80W90	GL-5	\$24.95
MGOH80W904	4L	80W90	GL-5	\$84.95
MGOH80W9025	25L	80W90	GL-5	\$509.95

PRIZMA ZX GEAR OIL

LARGE CAPACITY PERFORMANCE GEAR OIL

- Special synthetic gear oil for motorcycles with separately lubricated gearboxes and universal joints
- For use wherever SAE 80W/90 or GL-4+5 is recommended
- Suitable for Harley Davidson V-Twin Twin Cam Engines
- Recommended use with Motorex Top Speed 15W/50 engine oil

PART #:	LITRE:	SAE:	API:	RRP:
MPZX75/901	1L	75W90	GL-4/5	\$34.95
MPZX75/904	4L	75W90	GL-4/5	\$129.95
MPZX75/9025	25L	75W90	GL-4/5	\$750.00

ATF DEXRON III

AUTOMATIC TRANSMISSION FLUID

- Automatic transmission fluid
- Excellent performance in all conditions and in respect of ageing
- For all motorcycles with an automatic clutch

PART #:	LITRE:	SAE:	API:	RRP:
MATF31	1L			\$33.95
MATF34	4L			\$115.95

FARMER POLY

MODERN ATV/SXS WITH WET BRAKES

- Ideal for modern ATV/UTV with wet brakes
- API GL-4, ZF TE-ML 03E, 05F, 06K
- ZF TE-ML 06E, 06F
- HLP gem. DIN 51524 T2
- UTTO: Massey Ferguson M 1135, M 1141, M 1143, Ford M2C-134D, John Deere JDM J20C

PART #:	LITRE:	SAE:	API:	RRP:
MFP3045	5L		GL-4	\$129.95
MFP30420	20L		GL-4	\$439.95

SCOOTER GEAR OIL

SCOOTER / COMMUTER

- Convenient easy-to-use tube
- SAE 80W/90, API GL-4/5

PART #:	LITRE:	SAE:	API:	RRP:
MSGOZX80/90	130ml	80W90	GL-4/5	\$15.95

FULL SERVICE KITS

MOTOREX start-up kits come complete with everything you need to keep your off-road 4-stroke or 2-stroke motorcycle running in perfect condition. MOTOREX start-up kits offer great value for money and are available in multiple 2-stroke and 4-stroke options to suit a wide range of makes & models.

CHAIN CLEANER

POWERFUL CHAIN DEGREASER

- Highly effective cleaner for all drive chains
- Excellent basis for optimum chain maintenance and wear life
- Effectively removes caked-on residue
- Tested with X-rings and O-rings

PART #:	LITRE:	RRP:
MCC611500	500ml	\$22.95

OFF-ROAD

MOTOCROSS / OFF-ROAD

- Fully synthetic, wear-reducing chain lubricant
- Tested for X-ring and O-rings
- Especially suited for motocross, enduro and off road use
- Waterproof, resistant to spin and pressure

PART #:	LITRE:	RRP:
MCL62256	56ml	\$13.95
MCL622500C	500ml	\$28.95

ROAD

ROAD / COMMUTER STREET

- Special white, wear-reducing lubricant with excellent adhesion
- Especially suited for X-ring and O-ring chains
- Waterproof, absolutely resistant to spin and high pressure
- Best suited for road use

PART #:	LITRE:	RRP:
MCL622ST56	56ml	\$13.95
MCL622ST500	500ml	\$28.95

ADVENTURE

ADVENTURE / DUAL SPORT

- Special white lubricant strengthened with Teflon with extreme adhesion
- Repels Dirt & Dust (low dirt adhesion)
- Especially suited for X-ring and O-ring chains
- Extremely resistant to spin, waterproof and temperature-resistant!

PART #:	LITRE:	RRP:
MCLA200	200ml	\$20.95
MCLA500	500ml	\$31.50

RACING

RACING STREET

- Prevents chain and sprocket wear
- Special white lubricant strengthened with Teflon with extreme adhesion
- Especially suited for X-ring and O-ring chains
- Extremely resistant to spin, waterproof and temperature-resistant!

MCLR500-PK

\$52.45

Essential motorcycle cleaning & protective additives

SYSTEM GUARD

- Cleans and dissolves deposits throughout the entire injection system
- Improves corrosion protection, binds water
- For petrol and diesel injection systems
- Mixing ratio: 1L:250L

PART #:	RRP:
MSG125	\$14.95
MSG250	\$20.95

FUEL STABILIZER

- Fuel oxidation protection. Binds water
- Protects the system against rust and corrosion
- For petrol and diesel systems

PART #:	RRP:
MFS125	\$13.95
MFS250	\$17.95

VALVE GUARD

- For unleaded and super unleaded petrol, replaces the lubricating effect of lead
- Protects valve seats and cleans the entire fuel delivery system
- For all 4-stroke engines with or without catalytic converters
- Mixing ratio 1:1000 | 10ml for 10L of fuel

PART #:	RRP:
MVG25	\$23.95

BRAKE & CLUTCH

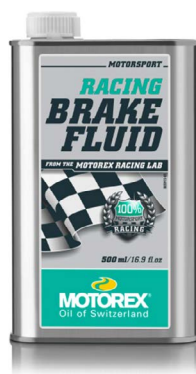

High-Performance brake & clutch fluid

BRAKE FLUID DOT 4

- High-performance brake fluid with a wet boiling point of more than 165°C
- Prevents the formation of vapour even at extreme braking loads
- Provides optimum braking performance and responsive braking

PART #:		RRP:
MBFDOT4250	250ml	\$18.50
MBFDOT41	1L	\$31.50
MBFDOT45	5L	\$115.00

RACING BRAKE FLUID

- High performance brake fluid developed by Motorex racing lab
- High dry and wet boiling points (563°F/383°F, 295°C/195°C)
- Used in and easily exceeds DOT 4 specifications

PART #:		RRP:
MRBF500	500ml	\$49.95

PERFORMANCE FLUID

BRAKE FLUID DOT 5.1

- High-performance brake fluid for hydraulic brakes. A high boiling point of more than 180°C
- Prevents the formation of vapour even at extreme braking loads
- Provides optimum braking performance and responsive braking

PART #:		RRP:
MBFDOT5.1250	250ml	\$20.95
MBFDOT5.11	1L	\$41.95

HYDRAULIC FLUID 75

- Special oil for hydraulic clutch system
- High seal compatibility
- Used whenever the manufacturer recommends a mineral oil-based fluid

PART #:		RRP:
MHF75250	250ml	\$28.95

Essential motorcycle cleaning & protective sprays

QUICK CLEANER

- For lightly soiled & dusty motorcycles
- Cleans plastics, visors, windscreens, paint and metal surfaces without water
- Fast and simple cleaning
- 360° spray head

PART #:		RRP:
MQC60	60ml	\$14.95
MQC500	500ml	\$24.95

MOTO CLEAN

- Powerful motorcycle cleaner
- New formulation with reduced pH-value
- Excellent compatibility with all surfaces e.g. plastic, aluminium, carbon & painted
- 360° spray head

PART #:		RRP:
MMC900	1L	\$31.50
MMC900REF5	5L	\$104.95
MMC90025	25L	\$479.95

MOTO SHINE

- Special gloss spray for a perfect finish after cleaning
- Lasting shine on paint, plastic, chrome etc
- Creates protective antistatic film to repel dust
- Water-beading effect

PART #:		RRP:
MMS500	500ml	\$26.50

MOTO PROTECT

- Maintenance and protective spray for all painted, metal & plastic surfaces
- Excellent corrosion protection due to a slight oil film, protects against dust and dirt
- For easy cleaning use before all off road riding

PART #:		RRP:
MMP500	500ml	\$26.50

CLEAN & CARE

SPRAY CARE & PROTECT

Essential motorcycle cleaning & protective sprays

PROTEX SPRAY

- Highly effective and long-lasting protection against moisture and oil
- Suitable for leather, textiles and microfibres (e.g. GORE-TEX®)
- Allows the fabric to breathe naturally

PART #:	RRP:
MPT500	500ml \$29.95

HELMET CARE

- Cleaning and care foam for helmet interior padding and shells. Cleans, deodorizes and freshens colors
- Can also be used for removable padding
- Also ideal for knee & elbow guards
- Provides a pleasant, fresh scent

PART #:	RRP:
MHC200	200ml \$19.95

VISO CLEAN

- Visor and helmet cleaning cloths
- Quickly and effectively loosens and removes dirt, bugs, and oil
- Anti-fogging treatment
- Box of 12x packs of 6

PART #:	RRP:
MVCLEAN1	1 Pack \$1.95
MVCLEAN126	Box \$129.95

UNDERSTANDING COOLANTS

Motorcycle specific coolants are a solution mixed with water to improve heat transfer and control the operating temperature of an engine. Quality coolants such as MOTOREX contain additional ingredients that inhibit rust, corrosion and lime scale. Lowering the running temperature of your engine and increasing the running life of your components.

Understanding **silicate free** coolant.

Silicates have good anti-corrosive properties and help prevent aluminium corrosion. However, some modern motorcycle cooling systems have been specifically designed for silicate-free coolant (Organic Acid Technology; OAT) where the two **CAN NOT** be mixed. If used incorrectly, coolants containing silicates can block the system, damage the water pump and seals.

Refer to your owners manual for the recommended coolant type.

COOLANT M5.0

- Coolant based on ethylene glycol
- It meets the strict requirements of various manufactures
- Free of nitrates, amines and phosphates

READY TO USE		
PART #:		RRP:
MAFRU1	1L	\$18.95
MAFRU20	20L	\$199.95

CONCENTRATE		
PART #:		RRP:
MAFG484	4L	\$90.75
MAFG4825	25L	\$565.95
MAFG4854	54L	\$894.95

COOLANT M3.0

- Coolant based on ethylene glycol provides excellent protection for all modern motors, particularly magnesium & aluminium engines operating under high loads
- **Free of silicates**, nitrates, amines and phosphates (OAT technology)

READY TO USE		
PART #:		RRP:
MAFM30RU1	1L	\$19.95
MAFM30RU20	20L	\$209.95

CONCENTRATE		
PART #:		RRP:
MAFM304	4L	\$104.95
MAFM3025	25L	\$582.05
MAFM3054	54L	\$970.15

DO NOT MIX SILICATE BASED COOLANTS WITH SILICATE-FREE COOLANTS.

BIO FILTER OIL

- Developed closely with Twin Air Highly absorbent & biodegradable
- For reusable foam air filters
- Excellent adhesion that prevents ingress of sand, dust and water

PART #:	RRP:
MRAF01	1L \$36.95

BIO DIRT REMOVER

- Developed closely with Twin Air
- Powder Form, Biodegradable and environmentally friendly
- Removes even the most stubborn dirt quickly and completely
- Easy to use for reusable foam air filters

PART #:	RRP:
MRAFC1	900g \$31.95

FOAM FILTER OIL

- Specially developed air filter oil for foam air filter elements
- Keeps out sand, dust and water
- Guaranteed optimal air flow
- Very good adhesion

PART #:	RRP:
MAF02061	1L \$31.95
MAF02065	5L \$142.00

FOAM FILTER CLEANER

- Ready to use cleaner for foam air filter
- Free of solvents, biodegradable and non combustible
- Suitable for use with all air filter oils
- Use cleaner with warm water, allow to dry

PART #:	RRP:
MAFC1	1L \$24.95
MAFC5	4L \$89.95

FILTER MAINTENANCE

AIR FILTERS

High-performance air filter maintenance products

AIR FILTER SPRAY

- Air filter oil spray for foam and cartridge air filter elements
- Keeps out sand, dust and water
- For off-road use must be worked through filter manually

PART #:

MAF0655750

RRP:

750ml \$31.95

HIGH-PERFORMANCE AIR FILTERS FOR MAXIMUM ENGINE POWER!

MOTOREX Oil of Switzerland now offers a wide range of air filters to combine maximum filtration performance with maximum engine output! Every MOTOREX air filter consists of 2 layers of foam with different porosity, flame laminated to weld into shape. The outer layer acts as a pre-filter to keep out mud and coarse dirt. Whereas the fine-pored inner cell traps even the smallest of dirt particles.

- Precisely designed to meet high-performance specifications.
- Developed in collaboration with a prestigious European manufacturer.
- Made from Polyurethane foam for off-road use.
- The material is easy to clean, dries quickly and is ready for use again within a short time.
- Air Filters consist of two layers of foam with different porosity, and a flame lamination process is used to weld these to form a mould.
- The cells of the outer layer act as a pre-filter and keep out coarse dirt, whereas the fine-pored inner cell layer traps even the smallest of dirt particles.
- Guarantees that no unfiltered air will pass through the intake tract, even under the toughest riding conditions.

High-performance fork oil with '3D Response Technology'

3D RESPONSE TECHNOLOGY

MOTOREX Racing Fork Oil with all-new "3D Response Technology" has been developed in collaboration with chassis specialists, leading racing teams and professional sports people. The MOTOREX 3D Response Technology is the culmination of extensive testing, research and development work, creating a perfect balance of the many special properties that a modern fork oil must have. The new fork oil boasts a special molecular structure that facilitates innovative damping behavior. This means that tractive and impact forces are no longer diverted along a zig-zag path like an accordion, but instead directed through a multi-level grid structure. The three dimensional structure of the new molecular composition forms the basis of the 3D Response Technology. The fine graduation of the viscosity classes ensures full compliance with the manufacturer's specifications.

2D ZIG-ZAG CHAIN STRUCTURED MOLECULE VS **3D CUBICAL STRUCTURED MOLECULE**

WATCH VIDEO

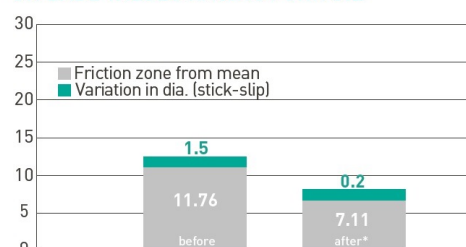

CLICK OR SCAN QR

After the development of the first samples of the new fork oil we had to take care about consistency in the test process. With the cooperation with a leading race team, world renowned suspension specialists, we developed new testing equipment and created ideas how to test the different parameters required of a modern fork. Illustrated in Figure 1, Motorex's 4W Fork Oil produced significantly higher Viscosity index results in comparison to WP's 4W Fork Oil.

FIGURE 1:

PRODUCT	V40 40 °C (mm2/s)	V100 100 °C (mm2/s)	VI
WP FORK OIL 4W	16.34 mm/2s	3.8 mm/2s	126
MOTOREX FORK OIL 4W	16 mm/2s	5 mm/2s	278

COMPARISON OF FRICTION ZONES
ON BASE VALUES RACING FORK OIL

* Friction reduced by approx. 40%
Stick-slip reduced by approx. 80%

ADVANTAGES

- Improved breakaway torque (stick-slip) by approx. 80%
- Maximum friction reduction by approx. 40%
- Fork oil specially developed for modern fork systems
- Significantly improved thermal stability
- Adaptation of the viscosity index in the maximum range
- Improved shear stability
- Optimum air release
- Reduced formation of foam

COPPER SPRAY

- Prevents mechanical parts exposed to high temperatures from seizing as a result of heat
- Stable in respect of oxidation
- Protects against corrosion. Good adhesion
- Resistant to salt water
- Thermal stability -40 °C and +1200 °C

PART #:

MCS400

RRP:

300ml \$31.95

2000 SPRAY

- Fully-synthetic, high-pressure-resistant with long-term effect for universal application
- Penetrates rapidly and protects from corrosion
- Thermally stable from -30 °C to +200 °C
- Adhesive, water-resistant, silicone-free, pressure and impact resistant, colourless

PART #:

MS2000500

RRP:

500ml \$24.95

GREASE SPRAY

- Viscous grease spray with good adhesion
- Resistant to water and saline solution
- Good protection against corrosion and wear

PART #:

MGS500

RRP:

500ml \$26.50

INTACT MX50

- Lubricates all moving parts and stops squeaking
- Perfect for protecting metal surfaces and preserving tools
- Leaves behind a very effective protective film
- Repels and undermines water, thus preventing corrosion

PART #:

MIS500

RRP:

500ml \$22.95

WORKSHOP SPRAYS

LUBRICATE & PROTECT

Essential workshop sprays for every cleaning & lubricating need

JOKER440

- Fully synthetic, lubricates all moving parts, stops squeaking, undermines water and protects against corrosion
- Indispensable for industry, trade, workshops, service stations
- Has a dielectric effect. Cleans and cares for metals and plastics

PART #:

MJ440500

RRP:

500ml \$24.95

MOTOR START

- For petrol and diesel engines
- Contains a friction-reducing lubricating component

PART #:

MMSS500

RRP:

500ml \$26.50

Now with a new dual-functioning nozzle for a quick transition between a wide spray and a more precise stream!

POWER BRAKE CLEAN

- Cleans and degreases all brake and clutch components
- Prevents whirling-up of wear residues from linings
- Removes oil, grease, brake fluid, tar, bitumen etc
- Also suited for cleaning machines, electric motors and precision instruments

PART #:

MPBCSP750

RRP:

750ml \$24.95

WORKSHOP SPRAYS

LUBRICATE & PROTECT

Essential workshop sprays for every cleaning & lubricating need

POWER CLEAN

- Degreasing and cleaning product that removes even the most stubbornly dirt
- Completely and reliably dissolves oil & grease
- Cleaner for ignition devices, battery contacts, clamps, electrical contacts
- Does not harm rubber, plastic and paint

PART #:

RRP:

MPCSP500

500ml

\$22.95

SILICONE SPRAY

- Lubricates, cares for and protects rubber, plastic and all metal parts
- Plastic components are given a high gloss; rubber items receive care and protection
- Thermal stability from -50 °C to +200 °C
- Antistatic, water-repellent, guards against oxidation

PART #:

RRP:

MSSP500

500ml

\$24.95

SILVER PAINT

- Silver synthetic paint for vehicles, machinery and equipment
- Withstands temperature up to +400 °C
- Weatherproof and scratch-resistant
- For metal, plastic, wood, glass, paper, etc

PART #:

RRP:

MSS500

500ml

\$31.95

SPRAY WITH PTFE

- Spray with PTFE is a dry lubricant, suitable as an anti-seize and release agent, which does not leave behind oily marks
- Almost unlimited chemical resistance and suitable for use over a very wide range of temperatures (+265 °C/+509 °F). Antistatic

PART #:

RRP:

MST200

500ml

\$19.95

GREASE

Ultimate performance long-life grease

**For fast
moving
parts!**

LONG-TERM GREASE

- Ultimate performance long-life grease for optimum lubrication, extended intervals, maximum adhesion and total resistance to water
- Optimum protection against corrosion and wear even under extreme conditions
- Excellent pressure bearing capacity
- Calcium grease NLGI 2

PART #:	RRP:
MLT1	850g \$48.50

LID INCLUDES
APPLICATION BRUSH

BIKE GREASE 2000

- Calcium-based yellow fluorescent grease with remarkable and lasting lubricity
- Highly water repellent, extremely pressure resistant, increased oxidation and prevents galvanic corrosion
- Ideal for lubricating bearings, wheel bearings, joints and headsets

PART #:	RRP:
MBG100	100g \$18.95

GREASE GUN

PART #:	RRP:
MGG75	\$49.95

GREASE 3000

- Specially designed for use in large, heavily loaded roller bearings in industrial and construction machinery, but also for small, *fast-turning* ball bearings and needle bearings in all applications!
- Stable against oxidation & exceptionally good corrosion protection
- Calcium grease NLGI 2

PART #:	RRP:
MG3000	850g \$48.25

AIR FORK GREASE

- Mineral-based lithium grease with EP (extreme pressure) additives
- To lubricate sliding and roller bearings in devices and machines

PART #:	RRP:
MG190EP850	850g \$47.50
